

MISSOURI IS THIRD IN BIG NINE MEET; SIMPSON, 10 POINTS

Tiger Star Breaks Western Conference Record in Both Hurdle Races—Floyd First in the Pole Vault.

WISCONSIN WINS,
CHICAGO SECOND

Daggy, Powell, Niedorp and Relay Team All Place—Seven New Marks Established and Two Are Tied.

HOW THEY FINISHED

Wisconsin	38
Chicago	37
Missouri	21
Illinois	18
De Pauw	18
Notre Dame	9
Northwestern	7
Lake Forest	5
Minnesota	4
Purdue	4
Coe	3 1/2
Ohio	3
Ames	3
Iowa	2 1/2
South Dakota	1
Michigan Aggies	1
Kansas	1

By United Press
URBANA, Ill., June 5.—Seven conference records were smashed and two others were tied in the annual Western Conference meet held here this afternoon. Missouri finished third with 21 points.

Wisconsin won the meet with 38 points, crowding out Chicago with 37. Wisconsin won by piling up a large number of seconds and thirds, although Mucks took two firsts. The race between Chicago and Wisconsin was close from the start and not until Wisconsin had got three points as second in the relay was the result determined. Even the five points taken by Chicago in the final event could not overcome Wisconsin's margin.

Simpson the Tiger Star.
Missouri made a creditable showing, mainly through the work of Simpson, who broke two hurdle records. The Tigers scored two more points in the low hurdles when Daggy finished third. In the pole vault Missouri made six points, with Floyd first and Powell fourth. The relay team finished third and Niedorp was fourth in the quarter-mile.

Another "Nick's" Records Goes.
Simpson lowered by one-fifth of a second the 120-yard high hurdle mark formerly held by Nicholson of Missouri. He cleared the high sticks in 15 flat, tying the world's record. By one and one-fifth seconds he smashed the 220-yard hurdle record held by Fletcher of Notre Dame.

Ivan Myers of DePauw ran the mile in 4:19.1-5, breaking the conference record by one and three-fifths seconds. Campbell of Chicago took two seconds off the half-mile record of Henderson of Illinois. Mason of Illinois lowered the record for the two-mile run by nine seconds. He was forced to this feat by Watson of Minnesota, who crowded him to his full speed.

New Record in Relay.
For the first time in his career Stiles of Wisconsin broad-jumped 83-4 inches farther than Allen of California, breaking the record in this event. Chicago's relay squad made better time by 1-3-4 seconds than Illinois and Leland Stanford, which had been tied for record honors.

Ward and Knight of Chicago equalled the 100-yard dash record of Blair of Chicago and Ward equalled the 220-yard mark of Hahn of Michigan.

Results Accurately Predicted.
It had been conceded from the outset that Wisconsin and Chicago would fight for first honors, while it was predicted after the preliminaries yesterday that Missouri and Illinois would battle for third place. The Wisconsin-Chicago duel was waged bitterly from the start.

Mucks of Wisconsin with twelve points won highest individual honors and Simpson with ten points was next. Simpson won the two hurdles and Mucks the discus and shot-put and was third in the hammer throw. Ward of Chicago came close with five points in the 220-yard dash and four in the hundred, in which he tied his teammate Knight. Few other

THE WEATHER.
For Columbia and vicinity: More or less unsettled today; probably occasional showers; not much change in temperature. For Missouri: Partly cloudy with probably showers today; cooler northwest portion.

Weather Conditions.
The atmospheric depression that moved westward from the Rocky Mountain region is crossing the territory between the Mountains and Mississippi slowly, and consequently the weather continues unsettled in all West Gulf and Plains States northward into Canada. Rains have been general in Northwest Texas, Oklahoma, Kansas and Missouri, thence northwestward to Manitoba and Alberta. Mostly fair weather prevails east of the Mississippi and in the Pacific states.

Local Data.
The highest temperature in Columbia Friday was 85 and the lowest Friday night was 62; precipitation, .03. A year ago Friday the highest was 94 and the lowest 72; precipitation, .00 inch.

men were able to get more than five points. The summary:

120-yard hurdles, first heat—Simpson, Missouri, first; Burke, Wisconsin, second. Time, 15.4-5.
Second heat—Ames, Illinois, first; Blauvelt, Purdue, second. Time, 15.4-5.
Third heat—Packer, Ames, first; McKenna, Illinois, second. Time, 16.
Final—Ward and Knight, Chicago, tie for first; Smith, Wisconsin, second; Casey, Wisconsin, third. Time, 15 flat. (New conference record. Equals world's record.)

100-yard dash, first heat—Knight, Chicago, first; Smith, Wisconsin, second. Time, 10.
Second heat—Casey, Wisconsin, first; Allen, Indiana, second. Time, 10.1-5.
Third heat—Ward, Chicago, first; Bradley, Northwestern, second. Time, 10.

Final—Ward and Knight, Chicago, tie for first; Smith, Wisconsin, second; Casey, Wisconsin, third. Time, 9.4-5. (Ties conference record.)

440-yard dash—Diamond, Chicago, first; Williams, Wisconsin, second; East, Purdue, third; Niedorp, Missouri, fourth. Time, 40.1-5.

Discus throw—Mucks, Wisconsin, first; Bachman, Notre Dame, second; Dutton, Iowa, third; Garrettsen, Iowa, and Knapp, Iowa, tied for fourth. Distance, 137 feet 7 inches.

High jump—Fisher, Chicago, and H. James, Northwestern, tied for first; Gorgas, Chicago, second; M. James, Northwestern, and Vidal, South Dakota, tied for third. Height, 5 feet 11.3-4 inches.

220-yard dash, first heat—Booth, Wisconsin, first; Bradley, Northwestern, second. Time, 22.

Second heat—McIntosh, Indiana, first; Knight, Chicago, second. Time, 28. (Only two starters.)

Third heat—Ward, Chicago, first; Hohman, Illinois, second. Time, 21.3-5.
Final—Ward, Chicago, first; Booth, Wisconsin, second; Knight, Chicago, third; Hohman, Illinois, fourth. Time, 21.3-5. (Ties record.)

Half-mile run—Campbell, Chicago, first; Myers, DePauw, second; Carroll, Ohio, third; Anderson, Minnesota, fourth. Time, 1:23.3-5. (New record.)

Pole-vault—Floyd, Missouri, first; Culp and Schuler, Illinois, tied for second; Powell, Missouri, fourth. Height, 12 feet 6 inches.

Two-mile run—Mason, Illinois, first; Watson, Minnesota, second; Benish, Wisconsin, third; Lawson, Wisconsin, fourth. Time, 9:24. (New record.)

Shot-put—Mucks, Wisconsin, first; Bachman, Notre Dame, second; Gartner, Wisconsin, third; Crowe, Purdue, fourth. Distance, 46 feet 3 inches.

220-yard hurdles—Simpson, Missouri, first; Lighter, Coe, second; Daggy, Missouri, third; Ames, Illinois, fourth. Time, 21.3-5. (New record.)

Broad jump—Stiles, Wisconsin, first; Packer, Illinois, second; Warwick, Kansas, third. Distance, 23 feet 9.3-4 inches. (New record.)

1-mile relay—Chicago first, Wisconsin second, Missouri third, Illinois fourth. Time, 3:21.3-5. (New record.)

400-yard relay—Barry, Lake Forest, first; Bachman, Notre Dame, second; Mucks, Wisconsin, third; Roads, Ohio, fourth. Distance, 128 feet 2.3-4 inches.

It is a conflict in the reports of Simpson's time in the 220-yard hurdle race. The account of the meet, as received from Urbana, credits him with having set a new conference record by one and one-fifth seconds, while the summary gives him the time of 21.3-5. As the old conference record was 21.4-5, it would appear that he finished in 21.3-5 if he clipped the one and one-fifth seconds off the old record.)

NOTE MAY BE ON WAY

President Approves Message to Germany and Sends It to Secretary Bryan.

By United Press
WASHINGTON, June 5.—The American rejoinder to the German reply to the protest against submarine warfare was completed tonight. Because of the secretive policy of the Secretary of State, it is not known when it will be delivered to the German foreign secretary. There is a report that the note has already been started toward Berlin, but officially all the information that was given out was that the President today placed his approval on the note and sent it directly by trusted messenger to the State Department. Under the rules, it must be handed to Secretary Bryan.

The note reaffirms the American position under international law. Not a single concession is made. Germany is asked to recognize that the United States will protect her citizens at all times. It frankly states that the questions under discussion are not subject to arbitration.

It is probable that there will be no more official information concerning the note until it is handed to the German foreign secretary, von Jagow.

To Take Flowers to County Infirmary.

This is flower day with the W. C. T. U. Members of the union will meet at the Broadway Methodist Church at 3 o'clock this afternoon and carry flowers to the county infirmary, two miles northeast of town. A meeting of the W. C. T. U. will be held at 3 o'clock tomorrow afternoon at the Broadway Methodist Church. Miss Rowena Shaner, vice-president at large for Missouri, will be there.

DANGER OF TYPHOID LURKS IN HIGH WATER

Dr. M. P. Ravenel Says Floods and Hot Season Make Precautions Necessary.

"DON'T BE CARELESS"

Pure Water Supply, Proper Sewage Disposal and Vaccination Are Safeguards.

The floods which have recently done so much damage in various parts of Missouri will increase the danger of typhoid fever, which has been quite prevalent in the state for the last two years, according to Dr. M. P. Ravenel, professor of bacteriology and preventive medicine at the University.

Doctor Ravenel also says that the season when typhoid is prevalent is coming on, and he warns everyone to take precaution against the disease.

"Typhoid fever is always caused by carelessness or negligence in regard to the disposal of sewage," says Doctor Ravenel. "It is everywhere a disease for the health authorities to deal with, and prevent by insuring a pure water supply and the proper disposal of the sewage."

"However, we have another safeguard which has given remarkable results—anti-typhoid vaccination. This consists of three injections which are given at intervals of ten days. There is but little discomfort attending the injections and the protection is almost absolute."

In the United States Army last year, consisting of more than 90,000 men, there was only one case of typhoid in a vaccinated soldier, according to Doctor Ravenel, and in our army and navy, consisting of practically 130,000 men, there were only nine cases of typhoid fever in 1913, a result which has not been attained anywhere else in the world. Several of these cases have occurred in the recruits who had not yet completed their vaccination.

GIFTS TO CHRISTIAN COLLEGE

\$5,000 to Found Scholarship—Graduates Leave \$50 for Work of Art.

Announcement is made by Christian College of a \$5,000 gift from Mrs. T. G. Dulany of Hannibal to found a scholarship as a memorial to her father, the late Colonel W. H. Dulany, for many years a trustee of the college. Another recent gift is that of \$50 from the graduates to buy a work of art for the college.

The next steps to be taken by the trustees, according to the president of the college, Mrs. L. W. St. Clair-Moss, in her address at commencement, are the enlargement of the college endowment and plans for a new building. This structure will house the school of home economics, provide dormitory facilities for the seniors and headquarters for the clubs which will take the place of the deposed social sororities and which will conserve the best elements of the literary societies with social features.

THINKS HIS SON WAS MURDERED

George D. Crist Returns to Kansas City to Conduct Another Search.

Convinced that his son has been murdered, George D. Crist of 1705 University avenue, returned last night to Kansas City, where he spent part of last week conducting a fruitless search for Charles Crist, who disappeared last Tuesday from his home at Independence, Mo. A telephone message late yesterday, the purport of which the elder Crist refused to divulge, led to the return to Kansas City.

The younger Crist, who was born in Columbia and was well known here, was struck accidentally and stunned Monday while at work. Tuesday he disappeared. His father and the Kansas City police have been conducting a search ever since. Two detectives also have been employed.

More County Fair Plans Made.

Further arrangements for the Boone County Fair—this year, August 10-13—were made yesterday afternoon at a meeting of the directors. The running race program was set to include: Half mile, \$75; three-fourths mile, \$100; one mile derby, \$200; four and one-half furlongs, \$75; five-eighths mile, \$100; seven-eighths mile, \$100; half mile, \$75; three-fourths mile, \$75. A special class was made for ponies under 14 hands high. Two mule races also were scheduled.

RAINS CHECK PESTS IN WHEAT AND CORN

June Crop Report Shows Fair Prospects for a Good Yield.

FLOODS HARM SOME

Water Is Receding in Time for Re-planting—Conditions About Normal.

For the first time in two years every section of Missouri has sufficient moisture for growing crops. This is in pleasing contrast with the condition of a year ago, says the report issued yesterday from the office of the secretary of the State Board of Agriculture, when almost the entire state was in need of rain and when insect pests were attacking almost every growing crop.

In some sections, the report continues, especially in the northwest and west-central parts, the rainfall in the last dozen days of May has been excessive, putting thousands of acres of growing crops under water. Many cultivated fields on uplands are badly eroded. At Columbia the rainfall for the month was 6.32 inches, as compared with 1.37 inches in May last year. Rainfall of 10 to 12 inches is reported in some sections.

While considerable damage has been done by the rains, the benefit will offset this many fold. The floods are receding in time for replanting. The rains have materially checked the ravages of the chinch bugs and other insect pests.

Wheat Conditions Have Improved.

Wheat conditions are 69.8 per cent normal. This is a gain of almost two points since the special report of May 20, leaving a loss of slightly more than 20 points for the month. The slight increase in condition since the rains will be offset by flood loss and decreased acreage from other causes. Generally speaking, the heaviest wheat producing counties in a ten-year average are reporting low conditions. This may reduce the indicated yield for the state. Recent improvements are, mainly in the late wheat. Indications of rust are causing some anxiety. Furthermore, heavy rains during the flowering period were not good for heavy yields.

The condition of wheat one year ago was 82.6 per cent. The ten-year average for June 1 is 80.7. By sections, the crop conditions now are estimated: Northeast, 80; northwest, 71; central, 66; southwest, 60, and southeast, 72. Harvest in the extreme southern part of the state will open by the middle of June. For the state as a whole, wheat will ripen from one to two weeks later than last year.

Nine-tenths of the Missouri corn crop is planted. This is 4 per cent in advance of the ten-year average. The stand is excellent, except in over-flooded or badly washed fields. The condition of the growing plants is 85.4, about 5 per cent above the ten-year average. By sections, corn conditions are: Northeast, 82; northwest, 77; central, 91; southwest, 87; southeast, 90. Planting progress is: Northeast, 90; northwest, 85; central, 95; southwest, 92; southeast, 91. Indications are that the corn acreage will be from 1 to 2 per cent larger than last year, when it was 7,421,600 acres. **Good Yield of Small Grain Expected.**

Oats are making a satisfactory growth since the rains. Present conditions are about 85 per cent, against 63 per cent a year ago. The first cutting of alfalfa and clover is excellent, though much alfalfa has been damaged by rain. Clover is fine. The condition of clover is 88 per cent. Timothy conditions are 81 per cent; alfalfa, 89; rye, 86; barley, 92. Bluegrass is coming out with good prospects. The tobacco acreage is estimated at 72 per cent of the 1914 crop; the cotton acreage at 77 per cent, and the potato acreage at 98. The outlook for a potato crop is the best in several years.

The peach crop in the northern half of the state promises less than 25 per cent of a normal yield, but in the southern part the prospects are for an abundant yield. Indications are that there will be a fair apple crop throughout the state. Conditions are lowest in the southwestern part, where Ben Davis apple will give a light yield. Small fruit is reported abundant, though dry weather followed by excessive rains have been bad for strawberry crops.

The average wool clip for the state is estimated at 6.7 pounds. Good

prices prevail, the average farm sales being at 25.1-2 cents. The shortage in all meat animals continues. There are only 72 per cent as many cattle on feed as last year and only 66 per cent as many hogs. Feeders, after operating at a loss last fall, are slow to stock up. In some localities there are not enough cattle to eat the grass.

GREEK KING SUFFERS RELAPSE

Second Operation Is Reported to Be Highly Successful.

By United Press
ATHENS, June 5.—King Constantine suffered a relapse today. A second operation was performed this afternoon by Professor Eiselsberg, the German specialist. A portion of the king's tenth rib was removed. An official bulletin said that the operation was highly successful.

"JIMMY" SHUCK DEAD

Will Be Remembered as 1911 Tiger Captain Who Tied Kansas by Field Goal.

Glen Bernard Shuck, better known to the M. U. football rooters as "Jimmy," died at 6:30 o'clock yesterday morning at his home at Hannibal, Mo., following an illness of many

Glen B. "Jimmy" Shuck.

months. Funeral services will be held at Hannibal at 3 o'clock tomorrow afternoon.

Last winter Shuck was reported to be dying, but later rallied and was declared out of danger.

"Jimmy" Shuck will be best remembered as the Tiger captain who turned defeat into a tie in the first Missouri-Kansas football game on Rollins Field in the fall of 1911, by dropping a perfect goal from the 30-yard line in the last few minutes of play. Shuck had been elected captain, following an accident that incapacitated T. E. D. Hackney in the Rolla game the same season.

Athletic honors came to Shuck in profusion. He won his football M in '09, '10 and '11 and his track letters in '09 and '10. He received the degree of bachelor of science in electrical engineering in 1912.

ROUMANIA MAY NOT ENTER WAR

Russia and Balkan State Disagree on Territorial Concessions.

By United Press
BERLIN, June 5.—Russia and Roumania failed to agree as to Roumania's territorial demands named as the price of participation against Germany, according to advices here. The

How to Get Your Grades.

All students should leave their student cards, in self-addressed envelopes bearing 2-cent stamps, at the Registrar's office, Room 103, Academic Hall. These will be mailed out later in the summer.

Roumanian menace of Austria is declared temporarily allayed.

The war office admitted that the French captured the Souchez sugar mill. It is stated that the Germans are rushing southward from Przemysl toward Moselsk. The Kaiser was given a tremendous ovation when he arrived at Archduke Frederick's Galician headquarters today.

CONFISCATES ENEMY'S SHIPS

Italy Seizes 57 German and Austrian Merchant Vessels.

By United Press
ROME, June 5.—Official announcement was made today that the government has confiscated fifty-seven Austrian and German steamers in Italian ports. The total tonnage of these steamers is 216,770. The value of the confiscated vessels is said to be more than \$20,000,000.

GERMANS MAKE DASH AGAINST WHOLE LINE

Half a Million Fresh Troops Pass Through Berlin on Way to Front.

PUSH RUSSIANS BACK

Only a Hasty Retreat Prevents Slavs Falling Into a Trap.

By United Press
LONDON, June 5.—Half a million fresh German troops have passed through Berlin in the last forty-eight hours bound for the battle front. Their destination is a closely guarded secret.

This information reached here tonight from reliable sources in Copenhagen. It confirmed the belief in military circles that Austro-Germans intend making a sudden drive against the British at Ypres. This and the submarine activity are parts of the Kaiser's great offensive movement on all the fronts. The belief prevailed here tonight that the new German forces were destined for the Flanders battle front.

A new German offensive against Ypres was launched two days ago. Sufficient time had elapsed to permit the arrival of troops from Berlin and their distribution along the Flanders fighting line.

By United Press
LONDON, June 5.—The German submarines have sunk at least thirteen vessels, four of them neutral, in the war zone during the last forty-eight hours.

The crew of the French steamer Penfield, which was torpedoed in the channel, reached Brest, France, at midnight, and the crews of the trawlers Horace and Economy landed at Lowestoft today. The trawler Strathbran was also destroyed. The British steamer Inkum, en route from New York to London, was torpedoed off Lizard Head yesterday. Among the other steamers sunk were the Swedish Lapland, the Norwegian Cubano and the Danish Salvador.

The Kaiser is striking mighty blows on sea and land. The Germans are strongly on the offensive in the Ypres region. They are preparing for a grand assault to break the British front. North of Arras the Germans are striking with tremendous force and in the east Mackensen is following up the capture of Przemysl with an attempt to keep the retreating Russians in flight until they cross the border out of Galicia. Other drives are progressing in southeastern Poland.

It is admitted that the Germans hold part of Hooge, and the British are preparing to resist the reinforced Germans in an attempt to drive the Allies from Ypres.

By United Press
LONDON, June 5.—Zeppelins raided the east and southeast coasts of England last night. In an official statement the admiralty admitted that a few casualties resulted.

By United Press
BERLIN, June 5.—The Russian army that evacuated Przemysl is falling back in the direction of Lemberg after an unsuccessful effort to make a stand east of the fallen fortress. Part of the retreating forces have already crossed the river south of the city, according to dispatches received here tonight.

A rapid advance of Austro-Germans under General Marwitz caused the Slavs to abandon their positions on the hills near Medyka. Marwitz crushed the Russians and threatened to drive the enemy into a trap. The battle in the woods north of Strij is now reached a crucial stage. In this region General von Linsinger is striking hard at the Russians, using the same tactics employed by Mackensen before Przemysl.

The enemy's losses have been unusually heavy. The artillery fire of the Russians in a counter attack has been ineffective.

Representative at Fair Writes Book.

Otto Kuhl, a mining engineer of Joplin, who is in charge of the Missouri mineral exhibit at the Panama-Pacific Exposition, has sent this State Historical Society a book, written by him, called "The Rationale of Investment in Zinc Mining." The book advocates investment in zinc mines in Missouri.
